**NEW!**

# DATA VAULT™

THE FIRST EVER DIGITAL PLAN STATION

CONNECTIVITY +  
 PRODUCTIVITY +  
 MOBILITY +  
 SECURITY =  
**ROI**

For over 50 years Knaack has secured professional's assets on the worksite. Now the leader in jobsite security connects professionals to technology on the job with the first fully protected digital plan storage station custom designed for onsite job management. Business Information Modeling (BIM) is a proven and growing construction project management technology that is bringing efficiencies and increased productivity to the construction industry. DataVault will maximize your return on investment (ROI) and secure digital assets directly on the worksite.

## CONNECTIVITY

Ability to sync various devices at jobsite through wireless and direct connect ports. Compatible with wireless routers and PCs for technology customization. Connect to your BIM and digital project management technology.

## PRODUCTIVITY

Building Information Modeling (BIM) access directly at the jobsite with an on-board TV monitor and multi-product adaptability. Gives workers the ability to update and view real time plans without extended downtime.

### BEFORE DATAVAULT

The job site and blueprints are separated by distance and/or obstacles.

Job Site

### WITH DATAVAULT

With DataVault, blueprints are available right at the job site.

## MOBILE WORK ENVIRONMENT

Reach nearly every job on the construction site during any stage of construction. Fits through standard door frame with included wheel casters, and 4 lift points to place in position (included).

## SECURING ASSETS

Knaack quality steel box built to protect against theft and resist jobsite conditions. Watchman IV lock technology standard to Knaack products.

# DATA VAULT™

THE FIRST EVER DIGITAL PLAN STATION

A step above the traditional jobsite protection device, the DataVault is customized to the professional's demand with the technology best suited to improve business efficiency. DataVault enables secure connectivity for all stakeholders directly to the worksite, empowering productivity and maximizing ROI of technology investments. DataVault's customized interior arrives on the job ready for use, and is supported with a nationwide manufacture certified support network to bring agile solutions to customers.
